

# Princess tree look alike

Princess tree (*Paulownia tomentosa*) may be confused with northern catalpa (*Catalpa speciosa*). Both have opposite heart-shaped leaves and clusters of tubular flowers.

## PRINCESS TREE

James H. Miller, Bugwood.org

**Princess tree** seed pods are egg-shaped capsules. Flowers are lavender.

Leslie J. Mehrhoff, Bugwood.org

## NORTHERN CATALPA

Peter M. Dziuk, MinnesotaWildflowers.info

**Northern catalpa** seed pods long, slender, and bean-like. Its white flowers have purple spots/streaks into the tube.
